DWSIM cross-check of the PSA membrane polishing train
a Compression power cross-check
DWSIM adiabatic power (W)
Python isothermal lower bound (W)
b Specific compression energy
Compression energy (kWh kg⁻¹ H₂)
DWSIM, 3-stage intercooled
isothermal lower bound
Predeclared case index
c Compressor discharge temperatures
Discharge temperature (K)
6.2→20 bar compressor
1→2.71 bar
2.71→7.37 bar
7.37→20 bar
Predeclared case index
d Material and stream closure
Maximum closure error (mol s⁻¹)
audit tolerance
Predeclared case index
