Independent continuous-area ODE audit of the membrane train
a Polymer-stage integration
72-section Euler
adaptive ODE
Stage-1 H2 recovery (%)
Predeclared case index
b ODE Pd-area guard
frozen recovery floor
selected 0.554 m²
Minimum overall H2 recovery (%)
Pd area (m²)
c Direct ODE confirmation
0.553 m²
revised 0.554 m²
Overall H2 recovery (%)
Predeclared case index
d Revised finite-selectivity guard
specification limit
Worst concentration / limit
CO
CO2
N2
CH4
